

Col. Clay Re-elected President.

The American Breeders' Protective Association met at Lexington and re-elected Col. E. F. Clay, of Paris, president, and Smith Gentry, of Lexington, Secretary. Nearly all the prominent thoroughbred breeders of Kentucky, and many Eastern breeders were present.

Would Have To Be Enlarged.

The Lancaster Record man has discovered that if some people loved charity and kindness as well as they do a dollar, Heaven would have to be enlarged to accommodate the extra sized wings they would be entitled to.

Our Great Wheat Crop.

Six hundred and thirty-seven million bushels of wheat is the United States average wheat crop. One-fifth the whole world's output: enough wheat, made into bread to provide one and one-third loaves for every inhabitant of the United States daily for a year; enough wheat, made into loaves a foot long, to girdle the earth.

Should Be Muzzled.

Rev. J. W. McGarvey, of Richmond, and Rev. Pickett, a Methodist minister, will hold a debate next week at Taylorville. The Christian people of that vicinity should muzzle both of the men to prevent the harm to the Master's cause that generally comes from such debates.

Stopped The Services.

While Elder M. G. Buckner, of the Harrodsburg Christian church, was preaching at Winchester, Sunday night, word was brought to him that a couple from Jessamine county was waiting at the hotel to be married; and he at once closed the services, repaired to the hotel and performed the ceremony. He is an old Bourbon boy, but he must have been hungry for a marriage fee.

Episcopalians Settle The Question.

The House of Bishops and the House of Deputies of the Episcopal general convention at Boston reached an agreement this week on the divorce question which becomes effective at once. It prohibits ministers from marrying any divorced person except as to the innocent party in a divorce for adultery. It is provided a year must elapse before application is made for remarriage in such cases, and then all records in the divorce proceedings must be laid before the ecclesiastical authority.

Must Be A Fairy Tale.

It is said that the healthiest community in the world is in the mountains of East Tennessee. Physicians are not permitted to charge for their services. They are paid by the municipality, each resident, well or ill, being taxed to make up funds for respectable salaries. Their incomes being guaranteed, it is not to the interest of the doctors to keep patients under treatment, hence everybody is well.

Girls Wore Dress Suits.

A Masquerade Halloween ball was given by seventy-five young women of Kentucky University, at Lexington, Friday night. It was held in the college gymnasium. The young ladies wore full dress suits. No men were allowed near except a few big brothers who arrived late and waited on the outside to be escorted.

Killed His Sister-in-law.

At Mt. Sterling, J. H. Neece, went to his home intoxicated and killed his sister-in-law, Miss Pearl Perkins, who remonstrated against his abuse of the family. Neece was threatened with violence before landed in jail.

OLLIE JAMES has run Speight off the stump. The last seen of this dismayed statesman he had a full dinner pail in one hand and his hat in the other, and was making for the tall and uncut. If he never stops until his wind gives out he will circle the globe.

DR. HUNTER is said to be handling the "stuff" at the Galt House headquarters. As soon as he withdrew his contest for the Congressional nomination he was placed in charge of the money-bags. It is hard to lose the "gum shoe" statesman. Every time he is annihilated he bobs up, either in a good office, or right in the midst of the campaign cash box.

EVERY Cabinet officer, head of department and clerk in and out of Washington has been called on to furnish facts and figures to meet the charges of Judge Parker of the cost of the Army in the Philippines and the general reckless waste of money in all branches of the Government. The volley of truths from Esopus is driving the republicans out of their trenches.

NATURE'S OWN REMEDY

Mi-o-na No Ordinary Remedy Guaranteed Bond With Every Box.

The usual way in which Clarke & Co., one of Paris' most reliable druggists, sell Mi-o-na, emphasizes the fact that this remedy possesses unusual merits. The guarantee that they give with every package is plain—"If Mi-o-na does not cure you of dyspepsia, we will return your money."

Mi-o-na contains remedies that soothe and heal the inflamed lining of the stomach. It helps digestion and thus relieves the digestive system of work and strain. It gives pure, rich blood and strengthens the nerves, so that the whole system is built up and vitalized while the dyspepsia is being cured.

WATSON'S WORK.

REPUBLICAN MONEY BACK OF THE POPULIST CAMPAIGN?

Though Thomas E. Watson in his speech accepting the Populist nomination for President at Cooper Union, New York, on August 18, said that Roosevelt "stands for those governmental principles which, in my judgment, are hurrying this Republic into a sordid despotism of wealth," the full speech is being sent broadcast as a Republican document.

The New York World states that the Republicans are hoping by this means to estrange "the voters of the Bryan Democrats from the National Democratic ticket."

"A Populist campaign in this state," continues the World, "is to be made with a plentiful supply of funds, and a state organization, it is said. It is openly intimated that there are not a few Republicans who would subscribe liberally to the Populist cause, for the purpose of deflecting Bryan votes from Parker."

"In this connection it is announced that Thomas E. Watson is to deliver forty speeches in doubtful states, and, strangely enough, at the precise points where they might be expected to do most harm to the Democratic ticket. Mr. Watson has been in frequent consultation with a number of men here about his plans. Some of these men were formerly closely identified with Bryan."

In connection with the efforts of Populists to aid Mr. Roosevelt, Democrats are citing this trenchant paragraph from Mr. Roosevelt's pamphlet on the campaign of 1896:

"Thrift, industry, and business energy are qualities which are quite incompatible with true Populistic feeling. Payment of debt, like the suppression of riots, is abhorrent to the Populistic mind. Such conduct strikes the Populist as immoral."

WOOL, COTTON AND SHODDY.

When the American farmer pays one-third more for farm machinery, barbed wire, nails, binding twine and a good many other things that he buys than the same products are sold for to the farmer in Europe, he discovers that high trust prices have their drawbacks as well as their advantages. As long as high prices were confined to wheat, cotton and corn, the farmer had the best of it, but now the trusts have forced up the cost of living, which includes nearly everything the farmer does not produce, the profit made off the farm is less than when prices, all around, were much lower. The quality of clothing is not nearly so good as it was some years ago; the "all wool and a yard wide" cloth is a thing of the past; it is now nearly all cotton and 33 inches wide, as anyone can discover by measuring it and picking even what is called fine goods to pieces and closely examining it. The high protective duty on wool has led the manufacturer to imitate wool with cotton, so that only an expert can discover the difference. This wonderful apparent transformation of cotton is called the mercerizing process, and the combine that is producing it is realizing vast profits. There is no protective duty on cotton, so the difference in price between cotton and wool is wide apart; the first named being worth eleven cents a pound, and wool about twenty-five cents. Thus, although the protective tariff on wool is the highest on record, 11 cents a pound on unscoured and 22 cents on scoured, since 1897, the price of wool has been much lower than under any other high tariff. Yet, the farmers have not made money on their sheep, to judge by the great decrease in the number raised, reported by the Agricultural Department. The enormous duty on wool has induced the manufacturers to find a substitute, the mercerized cotton and shoddy. The shoddy mills of Cleveland and elsewhere were never more prosperous than under the present tariff. So the farmers have been selling their wool at a low price and buying mercerized cotton and shoddy at a high price, when they bought a suit of clothes or any fabric supposed to be manufactured of wool. These are some of the beauties of the high protective tariff, and how it protects the farmer.

Since the beginning of the fiscal year July 1, the deficit of receipts of the government from all sources has been \$24,000,000 less than the expenditures. If the same ratio of loss is continued for the next ten months the deficit will amount to \$144,000,000 for the full fiscal year. It may not amount to more than half that sum, but whatever it proves to be shows the wasteful extravagance of the present administration.

For the fiscal year ending June 30, 1904, the Roosevelt administration expended \$177,000,000 more than the last year of the Democratic administration, and this was only counting the amounts in three appropriation bills out of seven, namely, the Army, Navy, and Civil and Miscellaneous. That extraordinary extravagance will be exceeded this year, for the appropriations made by Congress exceed last year's expenditures by nearly \$120,000,000.

Robbed The Grave.

A startling incident, is narrated by John Oliver, of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Oberdorfer's drug store.
